Independent auditors' report

To the Shareholders of

Salam International Investment Limited Q.P.S.C.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Salam International Investment Limited Q.P.S.C. (the 'Company') and its subsidiaries (together the "Group"), which comprise the consolidated statement of financial position as at 31 December 2025, the consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), as applicable to audits of the financial statements of public interest entities, together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the State of Qatar, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KPMG, Qatar Branch is registered with the Ministry of Commerce and Industry, State of Qatar, and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. The KPMG name and logo are registered trademarks of KPMG International.

Salam International Investment Limited Q.P.S.C.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of Investment Properties

See Note 12 to the consolidated financial statements.

The key audit matter	How the matter was addressed in our audit
We focused on this area because of the following reasons: ▪ The fair value of Group's investment properties as at 31 December 2025 amounted to QR 2,343,675,463 (2024: QR 2,266,930,052), which represents 50% (2024: 50%) of the Group's total assets, hence a material portion of the consolidated statement of financial position as at 31 December 2025. ▪ Valuation of investment properties involves the use of significant judgements and estimates.	Our audit procedures in this area included, among other things: ▪ Evaluating design and implementation and operating effectiveness of key controls over the methods, assumptions and data used in estimation of the fair value of the investment properties ▪ Evaluating the external valuer's competence, capabilities and objectivity; ▪ Inspecting the valuation reports and assessing whether any matters identified in them have a potential impact on the amounts recorded and / or the disclosures in the consolidated financial statements; ▪ Agreeing the property information in the valuation reports to the underlying property records held by the Group; ▪ Involving our own valuation specialist to assist us in the following matters; - assessing the consistency of the valuation basis and appropriateness of the methodology used, based on generally accepted valuation practices; - evaluating the appropriateness of the assumptions applied to key inputs such as discount rate, terminal growth rate, expected net cash flows and comparable market rate which included comparing these inputs with externally derived date as well as our own assessments based on our knowledge of the Group and industry. ▪ Evaluating the adequacy of the financial statement disclosures including disclosures of key assumptions, judgements and sensitivities

Independent auditors' report (continued)

Salam International Investment Limited Q.P.S.C.

Other Information

The Board of Directors is responsible for the other information. The other information comprises the information included in the Company's Annual Report but does not include the consolidated financial statements and our auditors' report thereon. Prior to the date of this auditor's' report, we obtained the report of the Board of Directors which forms part of the Annual Report, and the remaining sections of the Annual Report are expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon as part of our engagement to audit the consolidated financial statements. We have performed assurance engagements on the internal controls over financial reporting and the Company's compliance with the provisions of the Qatar Financial Markets Authority's Governance Code for Listed Companies that forms part of the other information and provided separate assurance practitioner's conclusion thereon that will be included within the other information

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Responsibilities of Board of Directors for the Consolidated Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

Independent auditors' report (continued)

Salam International Investment Limited Q.P.S.C.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.

- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Independent auditors' report (continued)

Salam International Investment Limited Q.P.S.C.

Report on Other Legal Requirements

As required by the Qatar Commercial Companies Law No. 11 of 2015, whose certain provisions were subsequently amended by Law No. 8 of 2021 (""amended QCCL""), we also report that:

i) We have obtained all the information and explanations we considered necessary for the purposes of our audit.

ii) The Company has maintained proper accounting records, and its consolidated financial statements are in agreement therewith.

iii) The report of the Board of Directors is expected to be made available to us after the date of this auditors' report.

iv) Furthermore, the physical count of the Company's inventories was carried out in accordance with established principles.

v) We are not aware of any violations of the applicable provisions of the amended QCCL or the terms of the Company's Articles of Association having occurred during the year which might have had a material effect on the Company's consolidated financial position or performance as at and for the year ended 31 December 2025.

The notes on pages 14 to 82 are an integral part of these consolidated financial statements.

1 Reporting entity

Salam International Investment Limited Q.P.S.C. (the "Company" or "SIIL") is a public shareholding company incorporated in the State of Qatar under Amiri Decree No. (1) on 14 January 1998. The registered address of the Company is PO Box 15224, Doha, State of Qatar. The commercial registration number of the Company is 20363. The shares of the Company are listed on Qatar Stock Exchange.

These consolidated financial statements as at and for the year ended 31 December 2025 comprise the Company and its subsidiaries (together referred to as the "Group").

The primary activities of the Group are to establish, incorporate, acquire, and own enterprises in the contracting, energy and industry, consumer and luxury products, technology, real estate, and development sectors, and to invest in securities in local and overseas market. There were no changes to the primary activities compared to the comparative period.

There is no ultimate parent and controlling party for the Company as the shares of the Company are owned by multiple shareholders.

2 Basis of accounting

These consolidated financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards). They were authorised for issue by the Company's board of directors on 3 March 2026.

Details of the Group's accounting policies, including changes thereto, are included in "Note 7".

3 Functional and presentation currency

These consolidated financial statements are presented in Qatari Riyal, which is the Company's functional currency. All amounts have been rounded to the nearest Qatari Riyal, unless otherwise indicated.

4 Basis of measurement

These consolidated financial statements have been prepared under historical cost basis except for the equity securities at FVOCI and investment properties which are measured on fair value basis on reporting date.

5 Use of judgement and estimates

In preparing these consolidated financial statements, management has made judgements and estimates that affect the application of Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Information about critical estimates and judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are as follows.

Revenue from contract with customers
The Group makes judgments in determining the performance obligations that exist in contracts with customers. Judgments are also applied in determining timing of transfer of control at a point in time or over time, cost to complete and percentage of completion. Where the standalone selling price is applicable, management uses estimates to determine it based on the cost plus mark-up depending on the nature of goods and services to be provided to different customers.

5 Use of judgement and estimates (continued)

Impairment of inventories
Inventories are held at the lower of cost and net realizable value less cost to sale. When inventories become old or obsolete, an estimate is made of their net realizable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision applied according to the inventory type and the degree of ageing or obsolescence, based on historical selling prices.

Impairment of non-financial assets (other than inventories)
The carrying amounts of the Group's non-financial assets other than goodwill (Property and equipment, right-of-use assets and equity accounted investees) are reviewed at each reporting date to determine whether there is any indication of impairment. That assessment requires judgement. Goodwill is tested annually for impairment. The determination of recoverable amounts of non-financial assets (the higher of their fair values less costs of disposal and their "value in use") requires management to make significant judgments, estimations and assumptions. In particular the assessment of "value in use" requires management to estimate expected future cash flows from an asset or a cash generating unit and also to choose an appropriate discount rate to discount those cash flows to present value.

Useful lives, residual values and related depreciation charges of property and equipment and right-of-use assets
The Group's management determines the estimated useful lives of its property and equipment and right-of-use assets for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Provision for expected credit losses of financial assets and contract assets
The Company uses a provision matrix to calculate ECLs for its financial assets and contract assets. The provision rates for trade receivables and accrued income are based on days past due for the group of various customer segments that have similar loss patterns (i.e., customer type and coverage by letters of credit and other forms of credit insurance). The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

Valuation of lease liabilities and right-of-use assets
The application of IFRS 16 requires the Group to make judgements and estimates that affect the valuation of the lease liabilities and right-of-use assets. These include determining the contracts in scope of IFRS 16, determining the contract term and the finance cost rate used for discounting of future cash flows.

The lease term determine by the Group comprises the non-cancellable period of lease contracts, periods covered by an option to extend the lease if the Group is certain to exercise that option and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option.

The present value of the lease payments are determined using the discount rate representing the rate of finance cost swap applicable for currency of the lease contract and for similar tenor, corrected by the average credit spread of entities with rating similar to the Group's rating, observed in the period when the lease contract commences or is modified.

Measurement of fair values

A number of Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

5 Use of judgement and estimates (continued)

Measurement of fair values (continued)

The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of the standards, including the level in the fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Group's audit committee

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on the observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumption made in measuring fair values is included in the following notes:

- Note 12 – Investment properties
- Note 14 – Investment securities

6 (a) New standards, amendments and interpretations

The Group has applied the following new and revised IFRS Accounting Standards that have been issued and are effective for annual periods beginning on or after 1 January 2025:

Effective date	New standards or amendments
1 January 2025	Lack of Exchangeability – Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates

The application of these amendments had no material impact on the Group's consolidated financial statements.

6 (b) New and revised standards and interpretations issued but not yet effective

A number of new standards, amendments and interpretations to standards are effective for annual periods beginning on or after 1 January 2025 and earlier application is permitted; however, the Group has not early applied the following new standards, amendments and interpretations in preparing these consolidated financial statements.

The following new and amendments standards are not expected to have a significant impact on Group's consolidated financial statements.

Effective date	New standards or amendments
1 January 2026	Classification and Measurement of Financial Instruments – Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures
	Annual Improvements to IFRS Accounting Standards – Amendments to: • IFRS 1 First-time Adoption of International Financial Reporting Standards; • IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7; • IFRS 9 Financial Instruments; • IFRS 10 Consolidated Financial Statements; and • IAS 7 Statement of Cash flows
	Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7
1 January 2027	IFRS 18 Presentation and Disclosure in Financial Statements
	IFRS 19 Subsidiaries without Public Accountability: Disclosures
	IAS 21 The Effects of Changes in Foreign Exchange Rates
To be determined	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures

The Group is currently evaluating the impact of these new standards and amendments. The Group will adapt it when they become effective.

7 Material accounting policies

The Group has consistently applied the following accounting policies to all periods presented in these consolidated financial statements, except if mentioned otherwise:

a) Basis of consolidation

i) Business combinations

The Group accounts for business combinations using the acquisition method when control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

7 Material accounting policies (continued)

a) Basis of consolidation (continued)

i) Business combinations (continued)

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

If share-based payment awards (replacement awards) are required to be exchanged for awards held by the acquiree's employees (acquiree's awards), then all or a portion of the amount of the acquirer's replacement awards is included in measuring the consideration transferred in the business combination. This determination is based on the market-based measure of the replacement awards compared with the market-based measure of the acquiree's awards and the extent to which the replacement awards relate to pre-combination service.

ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Details of changes in Group's subsidiaries are disclosed in Note 38.

iii) Non-controlling interests

Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Details of changes in Group's interest in subsidiaries are disclosed in Note 38.

iv) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest (NCI) and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

v) Interests in equity-accounted investees

The Group's interests in equity-accounted investees comprise interests in associates and joint ventures.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and the joint venture are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity accounted investees, until the date on which significant influence or joint control ceases.

7 Material accounting policies (continued)

a) Basis of consolidation (continued)

vi) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

b) Foreign currency

i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currency of the Group at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in profit or loss and presented within other income.

However, foreign currency differences arising from the translation of the following items are recognised in OCI:

- an investment in equity securities designated at FVOCI
- a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; and
- qualifying cash flow hedges to the extent that the hedges are effective.

ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into functional currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into functional currency at the exchange rates at the dates of the transactions.

Foreign currency differences are recognised in OCI and accumulated in the translation reserve, except to the extent that the translation difference is allocated to NCI.

When a foreign operation is disposed of in its entirety or partially such that control, significant influence or joint control is lost, the cumulative amount in translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to NCI. When the Group disposes of only part of an associate or joint ventures while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

c) Revenue from contracts with customers

Revenue is measured based on the consideration specified in a contract with a customer. The Group recognises revenue when it transfers control over a good or service to a customer.

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies.

7 Material accounting policies (continued)

c) Revenue from contracts with customers (continued)

Type of revenue	Nature, timing of satisfaction of performance obligations, significant payment terms	Revenue recognition policies
Rendering of services	Revenue is recognised over time as those services are provided. Since the customer consumes the benefits as and when services are rendered by the Group. Invoices are usually issued upon completion of the job or as agreed in the specific contract.	Revenue is recognised over time as the services are provided. The stage of completion for determining the amount of revenue is assessed based on the input method. The related costs are recognised in consolidated statement of income when they are incurred.
Technology contracts	The Group has determined that for technology contracts, the customer controls all of the work in progress as the hardware / software are being manufactured / developed / purchased. This is because under those contracts, hardware / software are made to a customer's specification and if a contract is terminated by the customer, then the Group is entitled to reimbursement of the costs incurred to date, including a reasonable margin. Invoices are issued according to the contractual terms.	Revenue from these contracts and the associated costs are recognised over time. Progress is determined based on the input method. The total consideration in the contract is allocated between all goods and services based on their stand-alone selling prices. In case where the stand-alone selling price is not applicable, it is determined based on the cost-plus mark-up depending on the nature of goods and services to be provided to different customers. Un-invoiced amounts are presented as contract assets.
Construction contracts	The Group builds civil construction and fit-out works for customers based on their designs and on their premises. Each project commences on receipt of advances from a customer and its length depends on the complexity of the design.	Revenue is recognised over time based on the cost-to-cost input method. The related costs are recognised in consolidated profit or loss when they are incurred. Advances received are included in contract liabilities.
Revenue from sale of goods	Revenue is recognised when the control of the goods are transferred to the buyer. Invoices are generated and revenue is recognised at that point in time. Some contracts permit the customer to return an item. Return goods are exchanged only for new goods. i.e. no cash refunds are offered.	Revenue from sale of goods (i.e. retail sales, sale of spare parts, whole-sale sales) is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. Revenue was recognised when the goods are delivered and have been accepted by the customers. Revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

7 Material accounting policies (continued)

c) Revenue from contracts with customers (continued)

Rental income

Rental income is recognised as revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease. Rental income from investment property is included as part of other income in the separate statement of profit or loss and other comprehensive income.

d) Finance income and finance costs

The Group's finance income and finance costs include:

- interest income;
- interest expense;
- dividend income;
- the foreign currency gain or loss on financial assets and financial liabilities;

Interest income or expense is recognised using the effective interest method. Dividend income is recognised in profit or loss on the date on which the Group's right to receive payment is established.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

– the gross carrying amount of the financial asset; or
– the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

e) Property and equipment

Recognition and measurement
Items of property and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property and equipment have different useful lives, then they are accounted for as separate items (major components) of property and equipment.

Any gain or loss on disposal of an item of property and equipment is recognised in profit or loss.

Subsequent expenditure
Subsequent expenditure is capitalized only if it is probable that future economic benefits associated with the expenditure will flow to the Group.

Depreciation
Depreciation is calculated to write off the cost of items of property and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in consolidated statement of profit or loss. Land is not depreciated.

7 Material accounting policies (continued)

e) Property and equipment (continued)

The estimated useful lives of property and equipment for the current and comparative periods are as follows:

Building	10-20 years
Leasehold improvement	3-4 years
Furniture and fixtures	4-7 years
Motor vehicles	5 years
Equipment and tools	3-5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Capital work in progress
Capital work in progress represents projects in the course of construction for the purposes of use in future. Capital work in progress is carried at cost, less any recognized impairment loss. Upon completion these projects will be transferred to property and equipment

f) Intangible assets and goodwill

Recognition and measurement

Goodwill
Goodwill arising on the acquisition of subsidiaries is measured at cost less accumulated impairment losses.

Research and development
Expenditure on research activities is recognised in consolidated statement of profit or loss as incurred.

Development expenditure is capitalised only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost less accumulated amortisation and any accumulated impairment losses.

Other intangible assets
Other intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses.

Subsequent expenditure
Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in consolidated statement of profit or loss as incurred.

Amortisation
Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in consolidated statement of profit or loss. Goodwill is not amortised.

The estimated useful lives for current and comparative periods are as follows:

Development cost	5 years

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

7 Material accounting policies (continued)

g) Investment property

Investment property is initially measured at cost and subsequently at fair value with any change therein recognised in profit or loss.

Any gain or loss on disposal of investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss. When investment property that was previously classified as property and equipment is sold, any related amount included in the revaluation reserve is transferred to retained earnings.

Rental income from investment property is recognised as other revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

h) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the weighted average and first in first out principle. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

i) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at banks and in hand and short-term deposits with a maturity of three months or less.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above, net of any outstanding bank overdrafts.

j) Financial instruments

i) Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

ii) Classification and subsequent measurement

Financial assets
On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and;
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

7 Material accounting policies (continued)

j) Financial instruments (continued)

ii) Classification and subsequent measurement (continued)

Financial assets (continued)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

– it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
– its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets – Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;

- how the performance of the portfolio is evaluated and reported to the Group's management;

- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;

- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and

- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

7 Material accounting policies (continued)

j) Financial instruments (continued)

ii) Classification and subsequent measurement (continued)

Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest (continued)

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets – Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

7 Material accounting policies (continued)

j) Financial instruments (continued)

iii) Derecognition

Financial assets
The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognised in its consolidated statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

Financial liabilities
The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

k) Impairment

Non-derivative financial assets

Financial instruments and contract assets

The Group recognises loss allowances for ECLs on:
- financial assets measured at amortised cost; and
- contract assets.

The Group also recognises loss allowances for ECLs on lease receivables, which are disclosed as part of trade and other receivables.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Impairment allowances for trade receivables (including lease receivables) and contract assets are always measured at an amount equal to lifetime ECLs.

7 Material accounting policies (continued)

k) Impairment (continued)

Non-derivative financial assets (continued)

Financial instruments and contract assets (continued)

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due. The Group considers a financial asset to be in default when the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held), or the financial asset is more than 730 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

Measurement of ECLs
ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets
At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 730 days past due;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECL in the consolidated statement of financial position
Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

7 Material accounting policies (continued)

(k) Impairment (continued)

Non-derivative financial assets (continued)

Write-off
The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

Non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than investment property and inventories) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(l) Employees' end of service benefits

The Group provides end of service benefits to its expatriate employees in accordance with Qatar labour law. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of minimum service period. The expected costs of these benefits are accrued over the period of employment.

With respect to its national employees, the Group makes contributions to the General Pension Fund Authority calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when due.

(m) Provision

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

7 Material accounting policies (continued)

(n) Income tax

Income tax comprises the expected tax payable on the taxable profit for the year, adjusted for any corrections to the tax payable of previous years. It is calculated on the basis of the tax laws enacted (Income Tax Law No. 24 of 2018 and Ministerial Decision No. 39 of 2019) or substantively enacted at the reporting date in the State of Qatar. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation.

If applicable tax regulation is subject to interpretation and there is uncertainty over a treatment chosen by the Company that it is not probable that the tax authority will accept, it establishes a provision where appropriate on the basis of amounts expected to be paid to the tax authorities. Provisions made in respect of uncertain tax positions are re-assessed whenever circumstances change or there is new information that affects the previous judgements and estimates.

Deferred tax is recognised in respect of temporary differences arising between the carrying amounts of assets and liabilities reported in the financial statements and their respective amounts used for tax purposes. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled using tax rates based on tax laws that have been enacted (Income Tax Law No. 24 of 2018) or substantially enacted by the reporting date in the State of Qatar.

(o) Leases

At the inception of a contract, the Group assess whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group uses the definition of a lease in IFRS 16.

i. As a lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

7 Material accounting policies (continued)

(o) Leases (continued)

i. As a lessee (continued)

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero. Right-of-use assets that meet the definition of investment property are presented within investment property.

Short-term leases and leases of low-value assets
The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

ii. As a lessor

At inception or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand- alone prices.

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, then the Group applies IFRS 15 to allocate the consideration in the contract.

The Group applies the derecognition and impairment requirements in IFRS 9 to the net investment in the lease. The Group further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

The Group recognises lease payments received under operating leases as income on a straight- line basis over the lease term as part of 'other revenue'.

7 Material accounting policies (continued)

p) Borrowings

Borrowings are initially recognised at fair value. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in statement of profit or loss over the period of the borrowings using the effective profit method.

Borrowings are derecognised from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the statement of profit or loss and other comprehensive income as other income or finance costs.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Classification of liabilities as current or Non-current and Non-current liabilities with covenants

The Group classifies liabilities as current or non-current based on the right to defer settlement for at least twelve months after the reporting period. This classification is subject to compliance with covenants specified in loan arrangements.

As per the management assessment, the Group expects to comply with all the applicable covenants within 12 months after the reporting date. Accordingly, the covenants with which the Group needs to comply after the reporting date do not affect the Group's right to defer settlement of the loans at the reporting date.

q) Operating profit

Operating profit is the result generated from the continuing principal revenue-producing activities of the Group as well as other income and expenses related to operating activities. Operating profit excludes net finance costs, share of profit of equity-accounted investees and income taxes.

r) Fair value measurement

Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities (see Note 5).

When one is available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Group uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Group measures assets and long positions at a bid price and liabilities and short positions at an ask price.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received. If the Group determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique for which any unobservable inputs are judged to be insignificant in relation to the measurement, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

8. Financial risk and capital management

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk;

Risk management framework
The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors has established the Risk Management Committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the board of directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

i) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investments in debt securities.

Trade and other receivables and contract assets
The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Risk Management Committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered.

Further information about the Group's exposure to credit risk are provided in Note 43.

ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Further information about the Group's exposure to liquidity risk are provided in Note 43.

8. Financial risk and capital management (continued)

Risk management framework (continued)

iii) Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk
Currency risk is the risk that the value of a financial instrument will fluctuate due to a change in foreign exchange rates.

The Group's exposure to currency risk on transactions with related parties and borrowings that are denominated in a currency other than the respective functional currency are limited to those currencies which are pegged against USD such as AED, RO, JD etc. The Group's exposure to other currency risk is minimal.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level.

Interest rate risk
Interest rate risk is the probability of a decline in the value of an asset resulting from unexpected fluctuations in interest rates.

The Group adopts a policy of ensuring that majority of its interest rate risk exposure is at a fixed rate.

Equity price risk
Equity price risk is the risk that the fair values of equity decreases as a result of changes in price indices of investments in other entities' equity instruments as part of the Group's investment portfolio.

Further information about the Group's exposure to market risk are provided in Note 43.

Capital management
The Group manages its capital to ensure that it will be able to continue on a going concern basis while maximizing the return to stakeholders through the optimization of the debt and equity balance.

Gearing ratio
The Group's management reviews the capital structure on a regular basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital.

The gearing ratios at the year end are as follows:

	2025	2024
Debt (Note 27)	2,269,365,200	2,215,318,090
Cash and cash equivalents (net of bank overdraft)	(201,131,747)	(181,153,333)
Net debt (a)	**2,068,233,453**	2,034,164,757
Equity	**1,776,034,740**	1,709,284,450
Net debt to equity	**116%**	119%

(a) Net debt is defined as long and short-term borrowing, net of cash and cash equivalents.

At 31 December 2024	137,338,926	45,381,110	2,034,508	6,760,393	16,905,234	128,691,608	337,111,779

9 Property and equipment (continued)

(i) This includes buildings costing value at the reporting date amounted to QR 197,784,257 (2024: QR 157,053,649) that have been constructed on lands leased from various Government agencies in the State of Qatar and United Arab Emirates.

(ii) This also includes land and buildings (Salam Plaza) with a net book value at the reporting date amounted to QR 89,136,214 (31 December 2024: 91,474,781) (Note 27) that is being utilised by the Group entities. This property is mortgaged to a local bank against the facilities obtained by the Group.

(iii) Depreciation charge has been allocated in the consolidated statement of profit or loss as follows:

	2025	2024
Operating cost (Note 32)	3,557,670	10,118,939
General and administrative expenses (Note 33)	26,945,772	34,348,288
Depreciation in the consolidated statement of profit or loss	**30,503,442**	44,467,227

(iv) In the statement of cash flows, proceeds from disposal of property and equipment comprise:

	2025	2024
Carrying amounts	3,908,241	1,044,350
Gain from sales of property and equipment (Note 34)	10,901,575	1,647,768
Proceeds from disposal of property and equipment	**14,809,816**	2,692,118

10 Leases

A. Group as lessee

The Group leases land and other properties such as retail outlets, staff accommodation, warehouse and factory facilities. The leases typically run for a period up to 30 years. Lease payments are renegotiated periodically to reflect the market rentals. Some leases provide for additional rent payments that are based on changes in local price indices.

The Group leases some properties with contract terms of less than one year. These leases are short-term and/or leases of low value items. The Group has elected not to recognise right-of-use assets and lease liabilities for these leases.

Information about leases for which the Group is a lessee is presented below.

I. Right-of-use assets

Right-of-use assets related to leased properties that do not meet the definition of investment property are presented separately in the consolidated statement of financial position. The carrying amounts of right-of-use assets are as below:

10 Leases (continued)

A. Group as lessee (continued)

I. Right-of-use assets (continued)

	Land and other properties	
	2025	2024
Costs		
Balance at 1 January	132,681,055	115,514,714
Additions	13,857,158	17,166,341
Modification (i)	(5,049,499)	-
Reclassification to investment properties (Note 12)	(3,141,334)	-
Balance at 31 December	**138,347,380**	132,681,055
Accumulated depreciation		
Balance at 1 January	67,499,394	55,719,003
Depreciation (ii)	12,853,678	11,780,391
Balance at 31 December	**80,353,072**	67,499,394
Carrying amounts		
At 31 December	**57,994,308**	65,181,661

(i) Modification of the right-of-use assets represents reduction in rental rates of land leased from Economic Zones Company QSC (Manateq) effective from 1 January 2025.

(ii) Depreciation charge has been allocated in the consolidated statement of profit or loss as follows:

	2025	2024
Operating cost (Note 32)	2,811,575	1,798,004
General and administrative expenses (Note 33)	10,042,103	9,982,387
Depreciation in the consolidated statement of profit or loss	**12,853,678**	11,780,391

II. Lease liabilities

	2025	2024
Balance at 1 January	80,297,830	67,304,873
Additions	13,857,158	17,166,341
Modifications	(5,049,499)	6,735,395
Interest expense (i)	4,303,569	4,002,788
Principal repayments	(11,665,413)	(10,908,779)
Interest paid	(4,303,569)	(4,002,788)
Balance at 31 December	**77,440,076**	80,297,830

10 Leases (continued)

A. Group as lessee (continued)

II. Lease liabilities (continued)

Lease liabilities are presented in the consolidated statement of financial position as follows:

	2025	2024
Current	11,365,726	10,383,246
Non-current	66,074,350	69,914,584
	77,440,076	80,297,830

The maturity analysis of the contractual undiscounted cash flows of lease liabilities is as follows:

	2025	2024
No later than 1 year	15,404,788	13,971,457
Later than 1 year and no later than 5 years	38,292,691	38,943,462
Later than 5 years	81,624,951	87,292,767
Total undiscounted lease liabilities at 31 December	135,322,430	140,207,686
Future finance charges of finance leases	(57,882,354)	(59,909,856)
Lease liabilities included in the statement of financial position at 31 December	**77,440,076**	80,297,830

(i) Interest on lease liabilities has been allocated in the consolidated statement of profit or loss is as follows:

	2025	2024
Operating cost (Note 32)	1,427,639	834,049
Finance costs (Note 36)	2,875,930	3,168,739
	4,303,569	4,002,788

III. Amounts recognised in consolidated statement of profit or loss

	2025	2024
Depreciation of right of use assets [Note 10 (A) (I)]	12,853,678	11,780,391
Interest on lease liabilities [Note 10 (A)(II)]	4,303,569	4,002,788
Expenses relating to short-term leases and leases of low value assets (Note 33)	10,317,841	13,248,353
Gain on derecognition of right-of-use assets and lease liabilities (Note 34)	-	(975,814)
	27,475,088	28,055,718

10 Leases (continued)

A. Group as lessee (continued)

IV. Amounts recognised in consolidated statement of cash flows

	2025	2024
Lease principal payments	11,665,413	10,908,779
Interest on lease liabilities (Note 36)	4,303,569	4,002,788
Total cash outflow for leases	**15,968,982**	14,911,567

B. Group as lessor

The Group leases out its investment properties consisting of its owned commercial properties as well as leased properties. All leases including sub leases are classified as operating leases from a lessor perspective.

I. Operating lease

The Group leases out its investment properties. The Group has classified these leases as operating leases, because they do not transfer substantially all of the risks and rewards incidental to the ownership of the assets. Note 12 sets out information about the operating leases of investment property.

Rental income recognised by the Group during 2025 was QR 114,274,408 (2024: QR 117,115,954) (Note 31).

The following table sets out a maturity analysis of lease payments, showing the undiscounted lease payments to be received after the reporting date.

	2025	2024
Less than one year	67,161,139	61,138,390
One to two years	37,339,193	31,361,317
Two to three years	23,826,667	20,038,295
Three to four years	9,596,873	12,746,554
Four to five years	3,480,570	2,328,833
More than five years	349,520	839,120
Total	**141,753,962**	128,452,509

II. Finance lease

The Group does not have any assets under finance lease in which it act as lessor.

11 Intangible assets and goodwill

	2025	2024
Goodwill (i)	45,447,432	45,447,432
Intangible assets (ii)	18,555,706	21,666,785
	64,003,138	67,114,217

11 Intangible assets and goodwill (continued)

(i) Goodwill

Goodwill acquired in a business combination is allocated, at acquisition, to the cash generating units (CGUs) that are expected to benefit from that business combination. There is no movements in the carrying amount of goodwill.

	2025	2024
Balance at 1 January	45,447,432	45,447,432
Balance at 31 December	**45,447,432**	45,447,432

Impairment testing for CGUs containing goodwill

For the purpose of impairment testing, the carrying amounts of goodwill has been allocated to the Group's CGUs (the subsidiary companies) as follows:

	2025	2024
Salam Petroleum Services W.L.L., Qatar	12,937,048	12,937,048
Salam Enterprises W.L.L., Qatar	11,062,279	11,062,279
Salam Technology W.L.L., Qatar	9,596,160	9,596,160
Salam Industries W.L.L., Qatar	7,531,543	7,531,543
Qatari German Switchgear Company W.L.L., Qatar	2,705,253	2,705,253
Salam Enterprises Company L.L.C., UAE	1,615,149	1,615,149
	45,447,432	45,447,432

The recoverable amount of these CGUs was based on fair value less costs of disposal, estimated using discounted cash flows. The fair value measurement was categorised as a Level 3 fair value based on the inputs in the valuation technique used.

The key assumptions used in the estimation of recoverable amount are set out below. The values assigned to the key assumptions represent management's assessment of future trends in the relevant industries and have been based on historical data from both external and internal sources.

	2025	2024
Discount rate	**11%**	11%
Terminal growth rate	**2.3%**	2.3%
Budgeted EBITDA growth rate (average of next five years)	**13%**	16%

Impairment testing for CGUs containing goodwill (continued)

The discount rate was based on a post-tax measure estimated based on the historical industry average weighted average cost of capital.

The cash flow projection includes specific estimates for five years for each CGU and a terminal growth rate thereafter. The terminal growth rate is determined based on management's estimate of long-term compound annual EBITDA growth rate, consistent with the assumption that a market participant would make.

11 Intangible assets and goodwill (continued)

(i) Goodwill (continued)

Budgeted EBITDA was estimated taking into account past experience, adjusted as follows.

- Revenue growth was projected taking into account the average growth levels experience over the past five years and the estimated sales volume and price growth for the next five years.
- Environmental costs are assumed to grow with inflation in other years

Management has identified that a reasonably possible change in discount rate could cause the carrying amount to exceed the recoverable amount. The following table shows the amount by which an assumption would need to change individually for estimated recoverable amount to be equal to the carrying amount.

	Change required for carrying amount to equal recoverable amount	
	2025	2024
Discount rate	**19.8%**	19.6%

(ii) Intangible assets

Intangible assets include costs incurred for computer software and ERP system. The costs incurred for computer software are amortized over a period of five years, being their expected useful lives.

	2025	2024
Cost		
Balance at 1 January	78,958,631	78,981,994
Additions	87,478	134,980
Write-off	(747,964)	(158,343)
Balance at 31 December	**78,298,145**	78,958,631
Accumulated amortisation		
Balance at 1 January	57,291,846	54,019,229
Amortisation (Note 33)	3,191,390	3,400,626
Write off	(740,797)	(128,009)
Balance at 31 December	**59,742,439**	57,291,846
Carrying amounts at 31 December	**18,555,706**	21,666,785

12 Investment properties

I. Reconciliation of carrying amount

The movement in the investment properties during the year are as follows:

	Land and Building	Right-of-use assets	Total
Balance at 1 January 2024	2,243,726,706	9,187,232	2,252,913,938
Additions	4,827,295	-	4,827,295
Reclassification from property and equipment (Note 9)	3,663,367	-	3,663,367
Disposals (i)	(3,792,079)	-	(3,792,079)
Lease modifications	-	7,711,209	7,711,209
Net fair value gain (ii)	2,288,118	(681,796)	1,606,322
Balance at 31 December 2024 / 1 January 2025	2,250,713,407	16,216,645	2,266,930,052
Additions	8,735,085	-	8,735,085
Reclassification from property and equipment (Note 9)	24,744,660	-	24,744,660
Reclassification from right-of-use assets (Note 10)	-	3,141,334	3,141,334
Transfer from property and equipment (Note 9)	56,545,875	-	56,545,875
Disposals (i)	(21,435,617)	-	(21,435,617)
Net fair value gain (ii)	5,502,838	(488,764)	5,014,074
Balance at 31 December 2025	**2,324,806,248**	**18,869,215**	**2,343,675,463**

Investment properties comprises a number of completed commercial, residential and industrial properties that are leased to third parties and vacant lands.

(i) This represents the disposal of land in Palestine during the year for net proceeds of QR 19,827,968 (2024: disposal of land in Dubai for proceeds of QR 6,306,930). The Group recognised a loss of 1,607,649 (2024: gain of QR 2,514,851) on disposal of these investment properties during the year (Note 35). Out of net proceeds QR 18,207,500 is receivable as at 31 December 2025 and recorded under other current assets.

(ii) Changes in fair values are recognised as a gain or loss in the consolidated statement of profit or loss and included in net gain on investment properties (Note 35). These losses or gains are unrealised.

Investment properties consist of following:

	2025	2024
Completed properties	2,330,113,083	2,240,667,140
Vacant lands	-	21,435,617
Property under development (iii)	13,562,380	4,827,295
	2,343,675,463	2,266,930,052

12 Investment properties (continued)

I. Reconciliation of carrying amount (continued)

(iii) The movement in property under development is as follows:

	2025	2024
Balance at 1 January	4,827,295	-
Additions	8,735,085	4,827,295
Balance at 31 December	**13,562,380**	4,827,295

Investment properties are located in State of Qatar, United Arab Emirates and State of Palestine (Ramallah). The below table summarize the investment properties by their location.

	2025	2024
Completed properties		
Located in State of Qatar	2,223,142,647	2,139,000,000
Located in United Arab Emirates	106,970,436	101,667,140
	2,330,113,083	2,240,667,140
Vacant land		
Located in State of Palestine (Ramallah)	-	21,435,617
Property under development		
Located in State of Qatar	13,562,380	4,827,295
	2,343,675,463	2,266,930,052

- The Group has no restrictions on the realisability of its investment properties and has no contractual obligations either to purchase, construct or develop investment properties other than those disclosed in Note 27

- Certain investment properties of the Group with fair value at 31 December 2025 of QR 2,108,000,000 (31 December 2024: QR 2,116,000,000) are mortgaged to a local bank against the facilities obtained by the Group (Note 27).

- The rental income recognised by the Group during the year was QR 108,509,841 (2024: QR 110,872,914) and included as part of real estate revenue (Note 31).

- Maintenance expense incurred by the Group during the year for its investment properties was QR 6,096,300 (2024: QR 7,360,261) and included in operating cost (Note 32).

- Right-of-use assets classified under investment property represent the fair value of rights over leased land from government authorities. The assets meet the definition of investment property in accordance with IAS 40 Investment Property, as the buildings constructed on the leased land are held to earn rental income.

12 Investment properties (continued)

II. Measurement of fair values

Investment properties are stated at fair value, which has been determined based on valuation performed by external independent valuers as at 31 December 2025 and 2024. The valuer is an accredited independent valuer with the recognised and relevant professional qualifications and with recent experience in the location and category of those investment properties being valued. In arriving at estimated market values, the valuers have used their market knowledge and professional judgment and not only relied on historical transactions comparable.

The Group's management determines the valuation policies and procedures for property valuations. Each year, the management appoints the external valuers responsible for the valuations of the Group's investment property. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The management engages independent and competent third-party valuation experts to countercheck the appropriateness of the methodologies used and appropriateness of the assumptions used; and to help them identify if there is any contradictory information and to reduce the estimation uncertainty involved in the estimation process.

The management decides after discussion with the external valuers:

- the valuation method to be applied for each property (the methods that are applied for fair value measurements categorised within Level 3 of the fair value hierarchy are the discounted cash flow method and the income capitalisation method; for fair value measurements in Level 2 of the fair value hierarchy, the market comparison approach is used) and;

- the assumptions made for unobservable inputs that are used in valuation methods (the major unobservable inputs are estimated rental value, rent growth per annum, long term vacancy rate, discount rate and exit yield)

Income approach

Income approach is a valuation method appraisers and real estate investors use to estimate the value of income producing real estate. It is based upon the premise of anticipation i.e., the expectation of future benefits. This method of valuation relates value to two things: the "market rent" that a property can be expected to earn and, the "reversion" (resale) when a property is sold.

The most commonly used technique for assessing market value within the income approach is discounted cash flow. This is a financial modelling technique based on explicit assumptions regarding the prospective cash-flow to a property or business and the costs associated with being able to generate the income. To this assessed cash-flow a market-derived discount rate is applied to establish a present value of the income stream. This net present value (“NPV”) is an indication of market value.

The Group has also used income capitalisation method to measure the fair value of certain properties based in Dubai. This method estimates market value by capitalising the property’s estimated future net income at an appropriate market-derived capitalisation rate. The key assumptions include projected net operating income and the capitalisation rate. These estimates are based on current market conditions and available information as of the reporting date.

12 Investment properties (continued)

II. Measurement of fair values (continued)

Market approach

Market approach or direct comparison method is based on comparing the subject asset with identical or similar assets (or liabilities) for which price information is available, such as a comparison with market transactions in the same, or closely similar (i.e. similar properties that have actually been sold in arms'-length transactions or are offered for sale), type of asset (or liability) within an appropriate time horizon. This approach demonstrates what buyers have historically been willing to pay (and sellers willing to accept) for similar assets (or liabilities) in an open and competitive market. Generally, the opinion on value is based on evidence of open market transactions in similar property with adjustments of the comparable to differentiate the differences between the subject property and the comparable. The market approach of valuation has primarily been adopted for plots of land and residential properties.

Depreciated replacement cost approach

Depreciated replacement cost represents the current cost of replacing an asset with a similar new asset, less deductions for physical deterioration and functional and economic obsolescence. Under this method, the present value of the buildings and structures located on the subject property is determined by estimating their replacement cost and applying straight-line depreciation based on the ratio of the asset's age to its estimated economic life.

The following table shows the carrying amounts and fair values of investment properties, including their fair value hierarchy

As at 31 December 2025	**Carrying amount**	**Fair value**		
		Level 1	**Level 2**	**Level 3**
Completed properties	2,330,113,083	-	39,722,772	2,290,390,311
Vacant lands	-	-	-	-
Property under development	13,562,380	-	-	13,562,380
	2,343,675,463	**-**	**39,722,772**	**2,303,952,691**

As at 31 December 2024	Carrying amount	Fair value		
		Level 1	Level 2	Level 3
Completed properties	2,240,667,140	-	35,034,653	2,205,632,487
Vacant lands	21,435,617	-	21,435,617	-
Properties under development	4,827,295	-	-	4,827,295
	2,266,930,052	-	56,470,270	2,210,459,782

There were no transfers between level of fair value hierarchy during current year.

12 Investment properties (continued)

II. Measurement of fair values (continued)

The following table shows the valuation techniques used in measuring Level 2 and Level 3 fair values at 31 December 2025 and 2024 for investment properties, as well as the significant unobservable inputs used.

Types of properties	Valuation techniques	Significant unobservable inputs	Range weighted Average		Inter-relationship between key unobservable inputs and fair value measurement
			2025	2024	The estimated fair value would increase (decrease) if:
Commercial properties	*Discounted cash flows:* The valuation model considers the present value of expected net cash flows generated from investment property discounted using weighted average cost of the capital of the Group.	Expected market rental growth rate	Range from 5% - 28%	Range from 5% - 22%	* Expected market rental growth rate were higher (lower)
		Occupancy rate	Range from 89% -93%	Range from 83% - 92%	* The Occupancy rate were higher (lower)
		Expected net cash flows	Range from QR 97 million– QR 191 million from year 2026 to 2031	Range from QR 105 million– QR 211 million from year 2025 to 2030	* Expected net cash flows were higher (lower);
		Discount rate (Weighted average cost of capital)	9% - 11.01%	9% - 11.02%	* Discount rates were lower (higher)
		Exit yield rate	7% - 9%	7% - 9%	* Exit yield rates were higher (lower)
		Rental income (sqm)	QR 50 to QR 385	QR 60 to QR 385	* Rental income per sqm was higher or lower
Residential properties	*Income capitalisation approach:* The valuation approach generally focuses on capitalising the property's income potential into a fair market value estimate.	Net yield rate	11.5% - 13%	10% - 13%	* Net yield rates were higher (lower)
		Expected annual rent	Range from QR 0.9 million– QR 5.8 million	Range from QR 0.8 million– QR 5.8 million	* Expected annual rent were higher (lower)
		Operating costs	10% - 20%	5% - 20%	* Operational costs were higher (lower)

12. Investment properties (continued)

II. Measurement of fair values (continued)

Types of properties	Valuation techniques	Significant unobservable inputs	Range weighted Average		Inter-relationship between key unobservable inputs and fair value measurement
			2025	2024	
Vacant land and residential properties	*Market comparison technique:* The fair values are calculated as derived from the current market prices available for the properties or nearby / adjacent properties adjusted for any differences with the comparable properties.	Price per square foot	QR 410 – QR 1,275	QR 50 – QR 916	The estimated fair value would increase (decrease) if: If the price per sqft increased (decreased)
Industrial properties	*Depreciated replacement cost:* Valuation approach represents the current cost of replacing an asset with a similar new asset, less deductions for physical deterioration and functional and economic obsolescence	Depreciable replacement cost per square meter	QR 1,300 – QR 4,500	-	If the cost per sqm increased (decreased)

12. Investment properties (continued)

II. Measurement of fair values (continued)

Sensitivity Information for investment property

The significant unobservable inputs used in the fair value measurement categorised within Level 3 of the fair value hierarchy of the Group's investment property are:

- Projected rental revenue per annum
- Projected rent growth per annum
- Projected occupancy per annum
- Projected operating expenses per annum
- Discount rate (Weighted average cost of capital)
- Exit / terminal yield rate

Significant increases (decreases) in project rental value per annum, projected rent growth per annum and projected occupancy rate per annum in isolation would result in a significantly higher (lower) fair value measurement. Significant increases (decreases) in projected operating expenses per annum, discount rate and exit or terminal yield in isolation would result in a significantly lower (higher) fair value measurement.

A quantitative sensitivity analysis is as shown below:

As at 31 December 2025	**Sensitivity Level**	**Completed Properties**
Projected rental revenue per annum	+/- 0.5%	12,206,408
Projected rent growth per annum	+/- 0.5%	12,206,408
Projected occupancy per annum	+/- 0.5%	12,206,408
Projected operating expenses per annum	+/- 0.5%	3,555,486
Discount rate	+/- 0.5%	46,397,595
Exit / terminal yield rate	+/- 0.5%	124,159,689

As at 31 December 2024	**Sensitivity Level**	**Completed Properties**
Projected rental revenue per annum	+/- 0.5%	13,367,234
Projected rent growth per annum	+/- 0.5%	13,367,234
Projected occupancy per annum	+/- 0.5%	13,367,234
Projected operating expenses per annum	+/- 0.5%	3,438,914
Discount rate	+/- 0.5%	52,235,342
Exit / terminal yield rate	+/- 0.5%	135,391,712

III. Amounts recognised in profit or loss

The following amounts are recognized in consolidated statement of profit or loss:

	2025	2024
Rental income and other operating revenues (Note 31)	114,274,408	117,115,954
Direct operating expenses (including repairs and maintenance) arising from investment property that generated rental income during the year	(8,045,287)	(10,508,577)
Profit arising from investment property carried at fair value	**106,229,121**	106,607,377

12 Investment properties (continued)

IV. Reconciliation of fair values categorized within level 3

The reconciliation of fair values categorized within level 3 is as follows

	2025	2024
Balance as at 1 January	2,210,459,782	2,193,755,549
Additions	8,735,085	4,827,295
Lease modifications	-	7,711,209
Reclassification from property and equipment	24,744,660	3,663,367
Reclassification from right-of-use assets	3,141,334	-
Transfer from property and equipment	56,545,875	-
Gain on valuation recognized in profit or loss	325,955	502,362
Balance as at 31 December	**2,303,952,691**	2,210,459,782

	106,285,776	97,662,178	**6,228,131**	636,672

The movement in equity securities designated at FVOCI is as follows:

	2025	2024
Balance at 1 January	97,662,178	93,843,039
Additions during the year	2,757,000	-
Disposals during the year	(1,721,840)	(2,855,471)
Net change in fair value during the year	7,588,438	6,674,610
Balance at 31 December	**106,285,776**	97,662,178

The movement in fair value reserve during the year is as follows:

	2025	2024
Balance at 1 January	(1,481,598)	(26,704,981)
Effect of change in fair value during the year	7,623,889	6,678,325
Reclassification of loss on disposal of investment securities at FVOCI to retained earnings	(5,409)	18,545,058
Balance at 31 December	**6,136,882**	(1,481,598)

15 Retention

I. Retention receivables

Retention receivable represents amounts withheld from the Group's issued invoices as maintenance guarantees by the clients. A portion of the retention is released at the completion date of the contract and the remaining portion is released 365 to 490 days afterwards unless otherwise stated in the respective contracts. The amounts withheld are usually 5% to 10% of each invoice.

	2025	2024
Retention receivables	89,061,895	87,350,487
Less: Allowance for expected credit loss	(27,690,458)	(27,077,784)
	61,371,437	60,272,703

Movement in allowance for impairment of retention receivables is as follows:

	2025	2024
Balance at 1 January	27,077,784	39,411,270
Provision during the year (Note 43 C (I))	2,812,674	3,675,508
Write off	(2,200,000)	(16,008,994)
Balance at 31 December	**27,690,458**	27,077,784

Retention receivables is presented in the consolidated statement of financial position as follows:

	2025	2024
Current	33,363,197	28,710,403
Non-current	28,008,240	31,562,300
	61,371,437	60,272,703

II. Retention payables

Retention payable represents amounts withheld from subcontractors' invoices as maintenance guarantees. A portion of the retention is paid at the completion date of the contract, and the remaining portion is paid after 365 to 490 days unless otherwise stated in the respective contracts. The amounts withheld are usually 5% to 10% of each invoice.

	2025	2024
Current	12,717,972	12,858,858
Non-current	5,680,410	7,079,826
	18,398,382	19,938,684

16 Other assets

	Current		**Non-current**	
	2025	2024	**2025**	2024
Advance payments	64,413,175	81,111,193	2,281,836	2,903,914
Accrued income	5,292,093	10,673,475	-	-
Prepayments	6,567,468	4,106,014	8,016,252	6,354,982
Others	30,612,627	13,865,332	-	71,929
	106,885,363	109,756,014	**10,298,088**	9,330,825

17 Inventories

	2025	2024
Goods for resale	375,155,473	364,405,095
Goods in transit	8,124,192	7,745,213
	383,279,665	372,150,308
Less: provision for slow moving inventories	(97,625,189)	(85,240,699)
	285,654,476	286,909,609

Provision for slow moving inventories are determined based on the age, ability to sell and management's historical experience with respect to various items of inventories.

The movement of provision for slow moving inventories is as follows:

	2025	2024
Balance at 1 January	85,240,699	84,912,675
Provision during the year (Note 33)	14,458,099	3,649,567
Write-offs during the year	(2,073,609)	(3,321,543)
Balance at 31 December	**97,625,189**	85,240,699

18 Related parties

The Group enters into transactions with companies and entities that fall within the definition of a related party as contained in International Accounting Standard No. 24, Related Party Disclosures. Related parties comprise companies under common ownership and/or common management and control, key management personnel, entities in which the shareholders have controlling interest, affiliates, and other related parties.

19 Contract assets and contract liabilities

	2025	2024
Aggregate amount of costs incurred and recognised profit (less any recognised losses) to the reporting date	2,293,986,854	1,969,609,045
Progress billings made to customers to the reporting date	(2,193,673,903)	(1,858,734,343)
Less: Allowance for impairment of contract assets (i)	(714,180)	(9,913,685)
Contracts-in-progress-net	**99,598,771**	100,961,017

Presented in the consolidated statement of financial position as follows:

	2025	2024
Contract assets	144,210,422	147,060,253
Less: Allowance for impairment of contract assets (i)	(714,180)	(9,913,685)
Contract assets, net	**143,496,242**	137,146,568
Contract liabilities	(43,897,471)	(36,185,551)
Contracts-in-progress-net	**99,598,771**	100,961,017

(i) The movement in allowance for impairment of contract assets is as follows:

	2025	2024
Balance at 1 January	9,913,685	9,913,685
Allowance / (reversal) during the year (Note 43 C (I))	-	2,134,427
Write-offs during the year	(9,199,505)	(2,134,427)
Balance at 31 December	**714,180**	9,913,685

The contract assets primarily relate to the Group's rights to consideration for work completed but not billed at the reporting date on several projects relating to the operating segments such as contracting, technology and energy and industry. The contract assets are transferred to receivables when the rights become unconditional. This usually occurs when the Group issues an invoice to the customer.

The contract liabilities primarily relate to the advance consideration received from customers for construction of several projects relating to the operating segments such as contracting, technology, and energy and industry, for which revenue is recognised over time.

20 Trade and other receivables

	2025	2024
Trade receivables	547,955,009	501,083,676
Notes receivables	15,493,120	28,601,814
	563,448,129	529,685,490

Net finance cost recognised in profit or loss	**(98,588,777)**	(122,195,479)

37 Income tax expense

The Group calculates the period income tax expense using the tax rate that would be applicable to the expected total annual earnings. The major components of income tax expense in the consolidated statement of profit or loss are:

	2025	2024
Current tax expense		
Current year	3,194,799	3,253,363
Changes in estimates related to prior years	887,601	15,146
	4,082,400	3,268,509
Deferred tax expense		
Origination and reversal of temporary differences	-	-
		-
Tax expense	**4,082,400**	3,268,509

The Group estimated the income tax expense for the year using the prevailing tax rate of 10% that would be applicable to the profit share attributable to 11.87% (2024: 12.54%) of non-Qatari shareholders of the Group. Further, the Group did not estimate significant deferred tax in respect of timing difference.

38 Subsidiaries

a) Details of the Group's subsidiaries are as follows:

Name of subsidiary	Principal activities	Country of incorporation	Ownership interest (%)	
			2025	2024
Salam Technology W.L.L.	Information technology	Qatar	100	100
I Telligent Technologies L.L.C.	Electronic system installation and maintenance	UAE	100	100
Stream Industrial and Engineering Company W.L.L.	Mechanical services	Qatar	100	100
Qatar German Switchgear Company W.L.L.	Switchgear manufacturing	Qatar	100	100
Salam Petroleum Services W.L.L.	Trading in chemical materials and maintenance of oil equipment	Qatar	100	100
Gulf steel and Engineering W.L.L. (ii)	Steel works	Qatar	100	100
International Trading and Contracting Company W.L.L. (ii)	Civil contracting	Qatar	100	100
Salam Enterprises Company W.L.L.	Furniture trading and contracting	Qatar	100	100
Salam Industries W.L.L.	Furniture and Interior works	Qatar	100	100
Alu Nasa Company W.L.L. (ii)	Aluminum works	Qatar	100	100
Salam Hospitality W.L.L.	Restaurants and bakeries management	Qatar	100	100
Gulf Industries for Refrigeration and Catering Company W.L.L. (ii)	Trading and maintenance of refrigerators, water coolers and air conditioners	Qatar	100	100
Holmsglen Qatar W.L.L. (ii)	Consulting and managerial studies	Qatar	100	100
Salam Bounian Development Company P.Q.S.C. (b)	Real estate	Qatar	86.37	85.74
Gulf Facility Management W.L.L. (ii)	Facility management	Qatar	86.37	85.74
Salam Enterprises L.L.C. (i)	Trading in water equipment	Qatar	100	100
Mafan Al Rasam Trading Company L.L.C.(i) (KSA)	Interior design	KSA	80	80
Modern Decoration Company L.L.C.(i)	Furniture and interiors manufacturing	UAE	100	100
Salam Group W.L.L.	Luxury Retail trading - intermediary holding company	Qatar	100	100

38 Subsidiaries (continued)

a) Details of the Group's subsidiaries are as follows (continued)

Name of subsidiary	Principal activities	Country of incorporation	Ownership interest (%)	
			2025	2024
Salam Studio and Stores W.L.L. – Doha	Retail and wholesale of luxury consumer products	Qatar	100	100
Salam Studio and Stores L.L.C. – Dubai (i)	Retail and wholesale of luxury consumer products	UAE	100	100
Salam Studio and Stores W.L.L. – Muscat (ii)	Retail of luxury consumer products	Oman	100	100
Salam Enterprise Company – Bahrain (iii)	Furniture trading	Bahrain	80	80
Salam Amwal Holding S.A.L. (ii)	Investments	Lebanon	100	100
Salam Globex W.L.L.	Marketing and offices facilities	Qatar	100	100
Prevent and Protect W.L.L. – Qatar	Oil and gas services	Qatar	100	100
New Image Building Services Gulf States L.L.C.	Building and facilities management	Qatar	86.37	85.74
Diversa S.R.L.	Trading in water equipment	Italy	100	100
Qatar Garden W.L.L.	Construction of soft and hard landscaping and supply of related materials	Qatar	100	100
Al-Shamila Eco Studies and Energy Solution W.L.L. (b)	Trading in equipment and rendering	Qatar	100	100
Amjad Company for Manufacture and printing Cardboard W.L.L.	Manufacture of bowls and boxes of cardboard	Qatar	100	100
Technovate Technology W.L.L.	Trading in IT equipment	Qatar	100	100
Cycure Technologies W.L.L.	Information technology services	Qatar	76	76
I Telligent Technologies W.L.L.	Trading in Computer Network and IT Consulting	Qatar	100	100
Atelier 21 L.L.C. (UAE)	Interior design	UAE	100	100
Salam Security Systems and Services O.P.C	Installation, Operation and maintenance of cameras and security surveillance	Qatar	100	100
Meta Coat W.L.L.	Aluminum and powder coating services	Qatar	100	100
Saudi Salam Group Limited (iv)	Various activities	KSA	100	100
Salam Arabic Trading Establishment (ii)	Luxury Retail trading	Kuwait	100	100
Salam Trading Enterprises (ii)	Luxury Retail trading	Jordan	100	100

(i) 99 % of the capital of these Group entities are commercially registered in the name of the Company and 1% is registered in the name of Salam Group W.L.L., an affiliate. The Group beneficially owned 100% of the subsidiary.

(ii) The operations and activities of these entities are currently on hold.

38 Subsidiaries (continued)

a) Details of the Group's subsidiaries are as follows (continued)

(iii) The capital of these entities is registered in the name of a Bahraini national for the beneficial interest of the Group.

(iv) Below branches are registered under Saudi Salam Group Limited and has started operations during the year

- Al Salam Group Company for Energy
- Al Salam Group Company for Information Technology
- Al Salam Studio & Stores Company
- Al Salam Facility Management Company
- Al Salam Pioneer Company for Decoration
- Al Salam Project Company Limited

(b) Details of the change in Group's subsidiaries are as follows:

Salam Bounian Development Company P.Q.S.C. – Acquisition of non-controlling interest

During the year 2025, the Company purchased additional 346,646 shares (2024: 8,131,376 shares) in Salam Bounian Development Company P.Q.S.C. and reached Group's ownership to 86.37%. The details of the additional purchase with respective gain from purchase recognised in equity are as follows:

	2025	2024
Carrying amount of non-controlling interest acquired	5,650,207	129,457,730
Consideration paid to non-controlling interest acquired	(2,079,876)	(48,818,257)
An increase in equity attributable to owners of the Group	**3,570,331**	80,639,473

Al-shamila Eco Studies and Energy Solution W.L.L. – Acquisition of non-controlling interest

During the year 2024, the Company purchased additional 49 shares in Al-shamila Eco Studies and Energy Solution W.L.L and reached Group's ownership to 100%. The details of the additional purchase with respective gain from purchase recognised in equity are as follows:

	2025	2024
Carrying amount of non-controlling interest acquired	-	98,000
Consideration paid to non-controlling interest acquired	-	(98,000)
An increase in equity attributable to owners of the Group	**-**	-

39 Earnings per share

Basic earnings per share amounts are calculated by dividing the profit attributable to owners of the Company by the weighted average number of ordinary shares outstanding at the reporting date.

The basic and diluted earnings per share are the same as there were no dilutive effects on earnings.

	2025	2024
Profit for the year attributable to Owners of the Company	98,047,729	51,392,003
Adjusted weighted average number of outstanding shares	1,143,145,870	1,143,145,870
Basic and diluted earnings per share	**0.086**	0.045

40 Contribution to social and sports fund

Pursuant to the Qatar Law No. 13 of 2008 and the related clarifications issued in 2010, which is applicable to all Qatari listed shareholding companies with publicly traded equity, the Group has to make an appropriation of 2.5% of its net profit attributable to the owners of the Company as a contribution to social and sports fund. During the year the Group has appropriated QR 2,451,193 (2024: QR 1,284,800) to the Social and Sports Development Fund of the State of Qatar.

41 Commitments and contingent liabilities

	2025	2024
Letters of credit	**37,186,163**	42,523,246
Letters of guarantee	**193,946,563**	207,266,125
Capital commitment	**1,325,962**	27,774,169

42 Operating segments

I. Basis for segmentation

The Group has the following six strategic divisions, which are its reportable segments. These divisions offer different products and services and are managed separately because they require different technology and marketing strategies.

The following summary describes the operations of each reportable segment.

Reportable segments	**Operations**
Interior and fit-out	Civil contracting, mechanical, plumbing and electrical contracting and related services
Power and energy	Oil and gas services including trading in chemical materials and maintenance of oil equipment
Luxury retail and distribution	Retail and wholesale of luxury consumer products
Technology	Information technology and related infrastructure project
Real estate and investments	Real estate operation and investment

The Group's chief executive officer reviews the internal management reports of each division at least quarterly.

II. Information about reportable segmentation

Information related to each reportable segment is set out below. Segment profit (loss) before tax is used to measure performance because management believes that this information is the most relevant in evaluating the results of the respective segments relative to other entities that operate in the same industries.

42. Operating segments (continued)

a) In terms of operating sectors

2025	Interior and fit-out	Power and energy	Luxury retail and distribution	Technology	Real estate and investments	Total

43 Financial instruments – fair values and risk management

A. Accounting classifications and fair values

The Group's financial assets (trade and other receivables, retention receivables, due from related parties, loans to associate companies, and cash at bank) and financial liabilities (credit facilities, retention payable and trade and other payables) are measured at amortised cost and not at fair value. Management believes that the carrying values of these financial assets and financial liabilities as at the reporting date are a reasonable approximation of their fair values.

The following table shows the carrying amounts and fair values of financial assets, including their fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

As at 31 December 2025

	Carrying amount	**Fair value**		
		Level 1	**Level 2**	**Level 3**
Investment securities – FVOCI				
Quoted equity securities	61,645,236	61,645,236	-	-
Unquoted equity securities	44,640,540	-	-	44,640,540
	106,285,776	**61,645,236**	**-**	**44,640,540**

As at 31 December 2024

	Carrying amount	Fair value		
		Level 1	Level 2	Level 3
Investment securities – FVOCI				
Quoted equity securities	51,660,097	51,660,097	-	-
Unquoted equity securities	46,002,081	-	-	46,002,081
	97,662,178	51,660,097	-	46,002,081

43 Financial instruments – fair values and risk management (continued)

B. Measurement of fair values

The following tables show the valuation techniques used in measuring Level 2 and Level 3 fair values for financial instruments in the statement of financial position, as well as the significant unobservable inputs used.

Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Market approach		
The transaction price of an investment in an unquoted equity instrument, which is identical to the investment being valued and made close to the measurement date, might be a reasonable starting point for measuring fair value at the measurement date.	Not applicable	Not applicable
Adjusted net asset method		
This valuation model considers the fair value of the investee's assets and liabilities (both recognised in the statement of financial position and unrecognised). The unquoted equity securities that are carried at adjusted net assets value are valued on the basis of financial statements available. The management assessed that fair value considered for unquoted equity securities on the basis of adjusted net assets is appropriate as these investee's value are mainly derived from the holding of assets rather the deploying the assets.	Expected fair value of the assets and liabilities.	The estimated fair value would increase / (decrease) if the adjusted net assets were higher / (lower).

Sensitivity analysis

For the fair valuation of unquoted equity securities that are carried at adjusted net assets value, reasonably possible changes at the reporting date to the significant unobservable input would have the following effect on other comprehensive income.

	Increase	Decrease
31 December 2025		
Adjusted net assets (5% movement)	**2,232,027**	**(2,232,027)**
31 December 2024		
Adjusted net assets (5% movement)	2,300,104	(2,300,104)

43 Financial instruments – fair values and risk management (continued)

C. Financial risk management

I. Credit risk

The Group's maximum exposure to credit risk at the reporting date is the carrying amount of its financial assets, which are the following:

	2025	2024
Financial assets		
Loans to associate companies	23,922,916	24,741,406
Accrued income	5,292,093	10,673,475
Due from related parties	392,765,909	357,254,705
Retention receivables	89,061,895	87,350,487
Trade and other receivables	563,448,129	529,685,490
Bank balances	264,182,425	238,288,697
Contract assets	144,210,422	147,060,253
	1,482,883,789	1,395,054,513

Allowance for impairment losses on financial assets and contract assets recognised in consolidated profit or loss statement were as follows:

	2025	2024
Allowance for impairment loss on trade receivables (Note 20)	13,770,168	15,712,405
Reversal of impairment loss on trade receivables (Note 20)	(6,204,120)	(192,944)
Allowance for impairment loss on due from related parties ((Note 18(d))	10,346,906	4,130,533
Allowance for impairment loss on retention receivables reversed (Note 15(I))	2,812,674	3,675,508
Allowance for impairment loss on contract assets reversed (Note 19)	-	2,134,427
	20,725,628	25,459,929

The movement in allowance for impairment loss of financial assets and contract assets are as follows:

	2025	2024
Balance at 1 January	307,275,939	319,518,570
Allowance during the year	20,725,628	25,459,929
Write-offs during the year	(39,073,358)	(37,702,560)
Balance at 31 December	**288,928,209**	307,275,939

A summary of the Group's exposure to credit risk for financial assets is as follows:

Expected credit loss assessment
The Group uses an allowance matrix to measure the ECLs of financial assets.

Loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency to write-off. Roll rates are calculated separately for exposures in different segments based on the following common credit risk characteristics – geographic region, age of customer relationship and type of product purchased.

C. Financial risk management (continued)

I. Credit risk (continued)

The following table provides information about the exposure to credit risk and ECLs for due from related parties, retention receivables, contract assets and trade and other receivables.

31 December 2025	**Weighted average loss rate**	**Gross carrying amount**	**Loss allowance**	**Credit impaired**
Current (not past due)	0.43%	174,605,443	754,743	No
1-60 days	17.47%	199,745,718	34,899,298	No
61-120 days	39.28%	35,367,229	13,891,772	No
121-365 days	3.62%	189,049,074	6,851,901	No
365-730 days	25.48%	110,527,749	28,165,597	No
More than 730 days	42.56%	480,191,142	204,364,898	Yes
		1,189,486,355	**288,928,209**	

31 December 2024	Weighted average loss rate	Gross carrying amount	Loss allowance	Credit impaired
Current (not past due)	0.44%	153,144,693	672,779	No
1-60 days	21.37%	144,981,774	30,987,382	No
61-120 days	45.80%	23,662,860	10,837,590	No
121-365 days	18.08%	531,802,961	96,162,256	No
365-730 days	45.10%	76,337,613	34,429,787	No
More than 730 days	70.10%	191,421,034	134,186,145	Yes
		1,121,350,935	307,275,939	

Loss rates are based on actual credit loss experience over the past three years and adjusted for forward looking factors. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

Forward looking factors are based on the actual and forecast macro-economic factors (primarily GDP).

Cash and bank balances
The Group held bank balances of QR 264,182,425 as at 31 December 2025 (2024: QR 238,288,697). The bank balances are held with bank and financial institution counterparties, which are rated A1 to A2 based on by Moody Rating Agency ratings.

Impairment on cash and bank balances has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties.

Guarantees
The Group's policy is to provide financial guarantees only for liabilities relating to certain subsidiaries. At 31 December 2025, the Company has issued a guarantee to certain banks in respect of credit facilities granted to its subsidiaries.

43 Financial instruments – fair values and risk management (continued)

C. Financial risk management (continued)

II. Liquidity risk

The following are the contractual maturities of financial liabilities and lease liabilities at the reporting date. The amounts are gross and undiscounted and exclude the impact of netting agreements:

		Contractual cash flow			
31 December 2025	**Carrying amount**	**Less than 1 year**	**1 to 5 years**	**Above 5 years**	**Total**
Borrowings	2,269,365,200	536,789,507	1,125,723,336	1,115,437,982	2,777,950,825

* Excluding provision for completed jobs

III. Market risk

The main risks arising from the Group's financial instruments are market risk, credit risk and liquidity risk. Market risk is the risk that changes in market prices, such as interest rates and foreign currency exchange rates that will affect the Group's income or the value of the holdings of financial instruments. Management reviews and agrees policies for managing each of these risks which are summarised below:

Equity price risk

The Group is subject to equity price risk in relation to equity securities at FVOCI. The Group evaluates the current market value and other factors including normal volatility in share price for quoted equities and other relevant factors such as investment manager's periodical reports relating to unquoted equities in order to manage its market risk.

43 Financial instruments – fair values and risk management (continued)

C. Financial risk management (continued)

III. Market risk (continued)

Sensitivity analysis

A 10% increase in market values of the Group's quoted portfolio of equity securities at FVOCI is expected to result in an increase in the asset and equity by QR 6,164,524 (2024: QR 5,166,010) and a 10% decrease in market values of the Group's quoted portfolio of equity securities at FVOCI are expected to result in a decrease of the asset and equity by QR 6,164,524 (2024: QR 5,166,010).

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Group is exposed to interest rate risk as it borrows funds at both fixed and floating interest rates. Management does not hedge its interest rate risk.

	Carrying amount	
	2025	2024
Non-interest bearing instruments		
Bank balances	136,164,482	85,307,476
Fixed rate instruments		
Bank balance	69,886,686	89,701,587
	69,886,686	89,701,587
Variable rate instruments		
Bank balances	58,131,257	63,279,634
Bank loans	(2,269,365,200)	(2,215,318,090)
Bank overdrafts	(64,332,815)	(58,300,580)
	(2,275,566,758)	(2,210,339,036)

These loans carry interest at commercial market rates.

Fair value sensitivity analysis for fixed-rate instruments

The Group does not account for any fixed-rate financial assets or financial liabilities at FVTPL. Therefore, a change in interest rates at the reporting date would not affect consolidated statement of income.

43 Financial instruments – fair values and risk management (continued)

C. Financial risk management (continued)

III. Market risk (continued)

Cash flow sensitivity analysis for variable-rate instruments

The following table demonstrates the sensitivity of the Group's profit to reasonably possible changes in interest rates, with all other variables held constant. The sensitivity of the profit is the effect of the assumed changes in interest rate on the Group's profit (loss) for one year, based on the floating rate financial assets and financial liabilities held at 31 December 2025.

	Profit (loss)		*Profit (loss)*	
	31 December 2025		*31 December 2024*	
	50 bps Increase	***50 bps Decrease***	*50 bps Increase*	*50 bps Decrease*
Variable rate financial liabilities	**(11,377,834)**	**11,377,834**	(11,051,695)	11,051,695

Foreign Currency risk
Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Group's functional currency and significant foreign currency transactions are denominated in currencies pegged with United States Dollar (“USD”). Therefore, the management is of the opinion that the Group's exposure to currency risk is minimal.

Fair values
The fair values of financial instruments, with the exceptions of investment at FVOCI, carried at cost are not materially different from their carrying values.

44 Comparative figures

Right-of-use assets which meets the definition of investment properties have been reclassified under investment property during the year in accordance with IAS 40 Investment Property, as the buildings constructed on the leased land are held to earn rental income. However, such reclassification did not have any effect on the net profit, total assets or total equity for the comparative year.

The corresponding figures presented for 2024 have been reclassified where necessary to preserve the consistency with the 2025 figures. However, such reclassification did not have any effect on the net profit, total assets or total equity for the comparative year.
